1. Jesus is the Only Way to God (6a)
2. Jesus is the Only Way to God, Because He is the Truth (6a)

“If all truth is ultimately grounded in the person of God, then every question asked is a question asked about a person, and every answer given is an answer received from a person. Every question about science is a question about how and why God has made and sustains the universe as He has. Every question about morality is a question about the character of God. Every question about politics and economics is a question about what it means to be made in the image of God and granted dominion over the earth. Every truth, no matter the discipline says something about who God is and what He has done.”
